

Join **ProCredit Bank Romania** as

Renewable Energy Intern

ProCredit Bank supports Green Investments in all operational areas, improving Energy Efficiency and promoting Renewable Energy.

Therefore, join us to learn how to provide assistance to our Business Clients to obtain financing for their **Photovoltaic and Wind Projects!**

If you are Student in the final year / Graduate of **Faculty of Energetics, Polytechnic University of Bucharest**, and..

- You are knowledgeable and passionate about **Renewable Energy and Environment**;
- You have the willingness to learn banking concepts;
- You have good analytical thinking skills and you are able to communicate in a structured and concise manner
- You master computer operation (MS Office) and have a good command of English in order to communicate with our colleagues from Europe

.. then we are willing to dedicate our time and resources to integrate you as **Renewable Energy Intern** in our **Sustainable Development Team!**

Then, in **ProCredit Bank** you will be able to:

- Learn to perform specific calculations, using tools for the technical analysis and impact measuring of financed green investments, based on the ProCredit methodology for green loans; get knowledge, support and mentorship from our strong team
- Support the ProCredit Sustainability Team in the development and expansion of energy efficiency, renewable energy and environmentally friendly projects in the area of green finance
- Earn a monthly stipend, based on the internship contract (2/3 Months)
- **Get in the pole-position to start your professional career with ProCredit as a full-time Sustainable Development Specialist!**

.. As part of the ProCredit group, **ProCredit Bank Romania** was established in 2002, with the main mission of supporting small and medium-sized enterprises (SMEs) by offering responsible financial services tailored to their needs. ProCredit Bank Romania promotes transparency, social responsibility and environmental protection, being dedicated to sustainable economic development.
